

Partner identification form

1. PARTNER ORGANIZATION

PIC number:	974830407
Organisation ID: (Erasmus ID)	E10287332
Full legal name (National language):	Иновациони центар Машинског факултета у Београду д.о.о.
Full legal name (Latin characters):	Inovacioni centar Masinskog fakulteta u Beogradu d.o.o.
Acronym:	ICMF
National ID (if applicable):	20134798
Department (if applicable):	/
Address:	Kraljice Marije 16
Country:	Serbia
P.O. Box:	
Post code:	11120
CEDEX	
City:	Belgrade
Web site:	http://www.inovacionicentar.rs
E-mail:	nzrnic@mas.bg.ac.rs
Telephone:	+381 (11) 330 23 46
Fax:	+381 (11) 337 03 64

2. PROFILE

1) Type of organization - Research institute/Centre

Is the partner organization a public body?

YES

Is the partner organization a non-profit?

YES

3. BACKGROUND AND EXPERIENCE

Innovation Center of the Faculty of Mechanical Engineering (ICMF) is founded in 2006 as a daughter company and research and innovation center by the Faculty of Mechanical Engineering, University of Belgrade (FME UB). The main goal of ICMF is application of scientific, technical and technological knowledge and invention in order to create and release new and improved products, processes or services and support the creation of new business. They are adept for various fields of research. Due modern demands, they provided cutting edge equipment, laboratories and other means for our experts and specialists to use. There are 73 researchers employed in ICMF (PhD students and PhDs). The mission of ICMF is to apply research (industry and government-commissioned) in different areas: development

of technologies, prototyping, technology transfer, testing, engineering jobs, consulting and project management.

Activities of ICMF are:

Applied research for public and private sector industries; R&D project development (drafting, application, management, reporting, finance); Hosting and tutoring PhDs; Cross-disciplinary projects (water, waste, standards, manufacturing, education); Technology consulting and further training; International innovation networks.

The expertise of the ICMF includes realization of various R & D and innovation projects. We rely on consultant training and specialization of our teams, acquisition of new equipment to allow further development of our laboratory centers, extension of all aspects of cooperation and participations in national projects and programs of international cooperation. We are continually improving our knowledge base, focusing on acquiring and using the latest scientific results and technologies. We have cutting edge equipment for scientific research and solution for development problems in various branches of industry, which means: design and manufacturing of different mechanical parts, software design for industrial usage, materials characterization, IT, biomedical engineering and energetics.

The institution has a relevant experience in activities of various research programs and projects on the European and national level and a very educated and skilled staff.

ICMF has extensive experience in project management, being participant in large number of projects, including EUREKA, innovation, R & D and bilateral projects. ICMF has been involved in numerous projects in the field of IT, such as:

- Introducing electronic business management in large public systems,
- Software design for human resources management,
- Creating, assembling, organizing and maintenance of electronically-based systems.

Also, the staff members have experience in programming and data base design using PHP, HTML, Javascript, CSS, MySQL, Delphy, Visual Basic including object oriented programming at LAMP/WAMP platforms.

4. LEGAL REPRESENTATIVE

Title:	Full time professor
Gender:	Male
First name:	Nenad
Family name:	Zrnić
Department:	
Position:	Director
Email:	nzrnic@mas.bg.ac.rs
Telephone:	+381113302301

5. ICMF logo
